21 CFR Part 11

Due to pressures from regulatory

Electronic versus Digital Signatures

Automation is critical, therefore companies are rapidly moving to platforms that leverage paperless working environments in order to enhance quality, reduce costs and gain efficiency. A large component of automation is the ability to workflow documents electronically. This has sparked confusion and debate in regards to signatures, specifically electronic signatures versus digital signatures.

Improve the process of equipment qualification and software validation

The Development Translational Medicine Laboratories at Biogen needed to streamline the process and delivery of its equipment and software validation. To do this, they required a vendor who could

provide the right implementation methodology, had extensive knowledge of the life sciences industry, and an

bodies, 21 CFR Part 11 has become a large concern for the pharmaceutical industry.
